1.Introduction

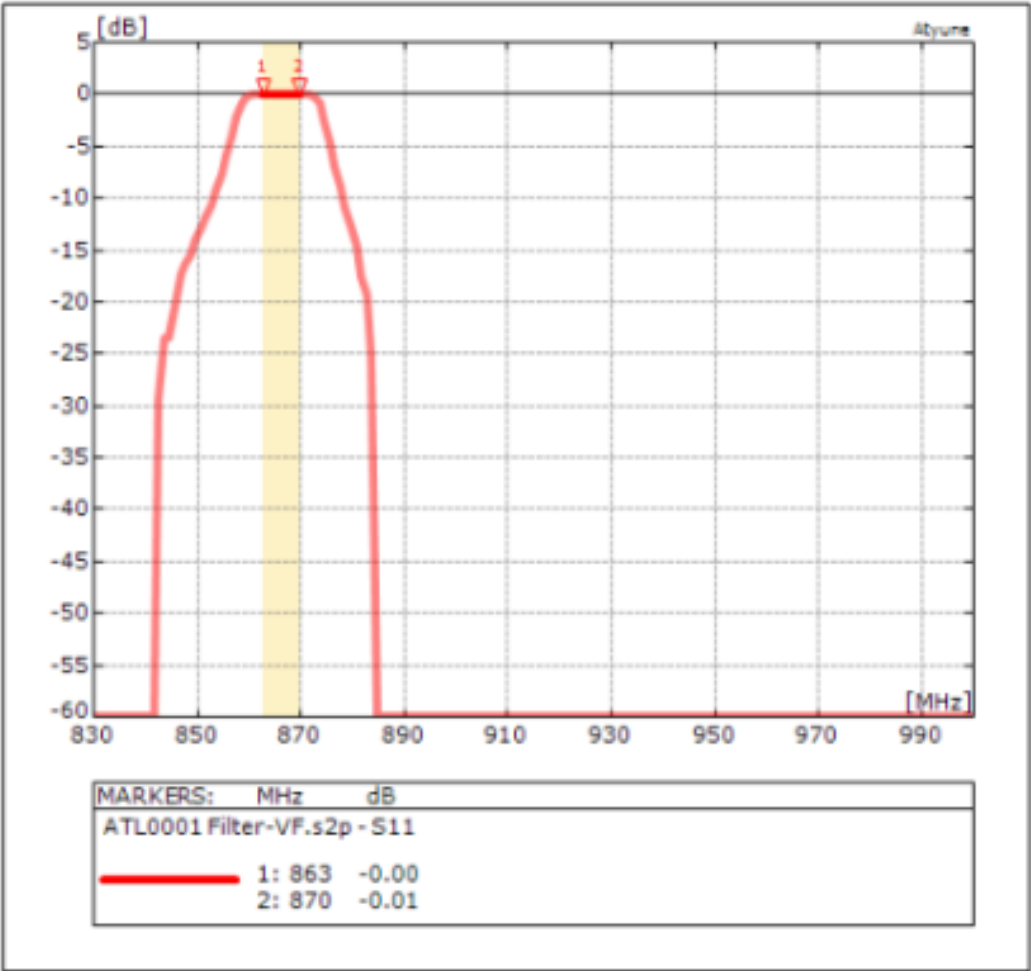

- Part Number: ATLFIL0001
- Description: Band Pass Filter for 865/868 MHz applications
- Feature: Supports European/IN region ISM Radio Applications
 - Low Insertion Loss
 - Low Pass-Band Ripple
 - High Ultimate Attenuation

2 Electrical Specification

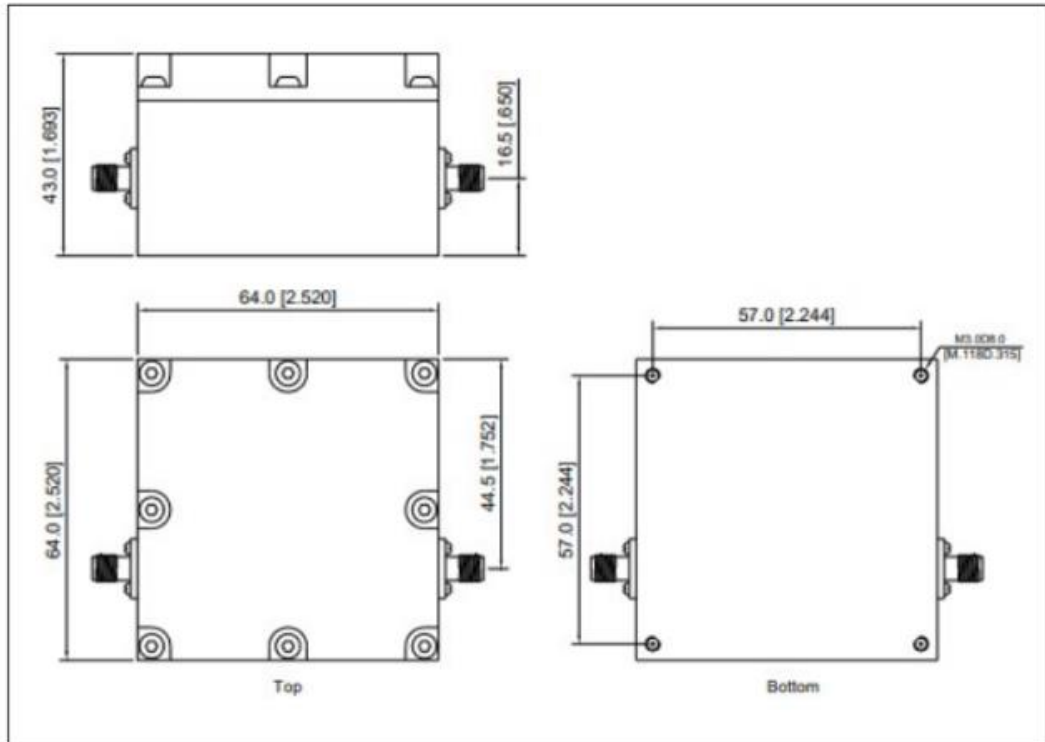

- Pass Band: - 863 - 870 MHz
- Impedance: - 50 ohm
- Insertion loss: -1.0 dB
- Max VSWR: - 1.22 dB
- Max Ripple: - 0.2 dB
- Power: - 30 W
- IP grade: - IP67
- Rejections: - 55dB @DC~833MHz
55dB @903~3000MHz
- Connector type: - N-type male to N-type Female
- Temperature: - -30°C +70°C
